

Manual Test Plan

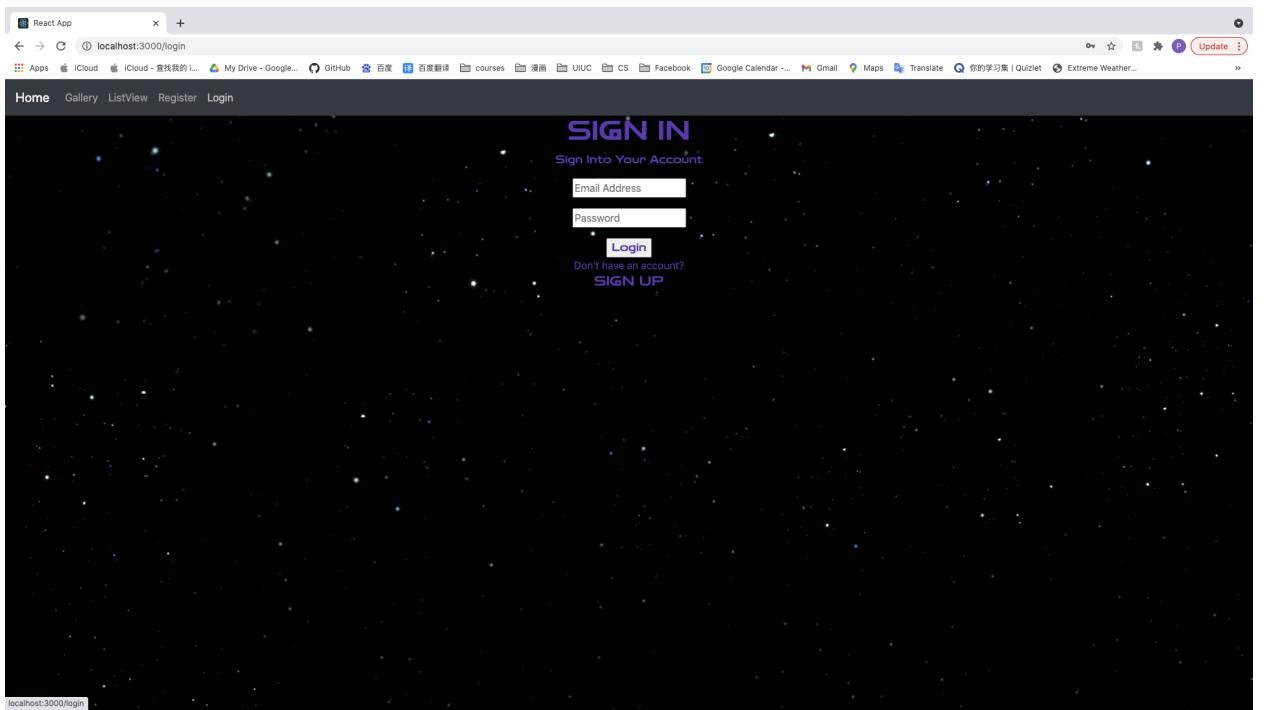

1. New sign up page is like

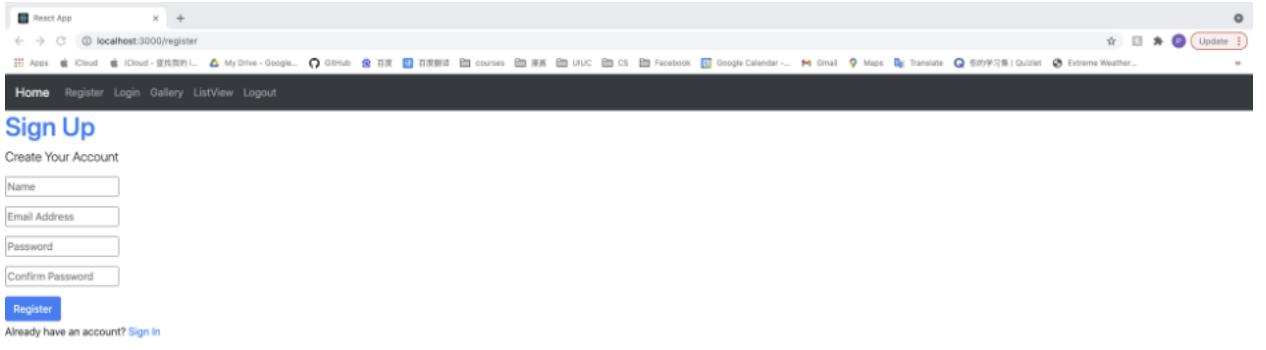

Instead of

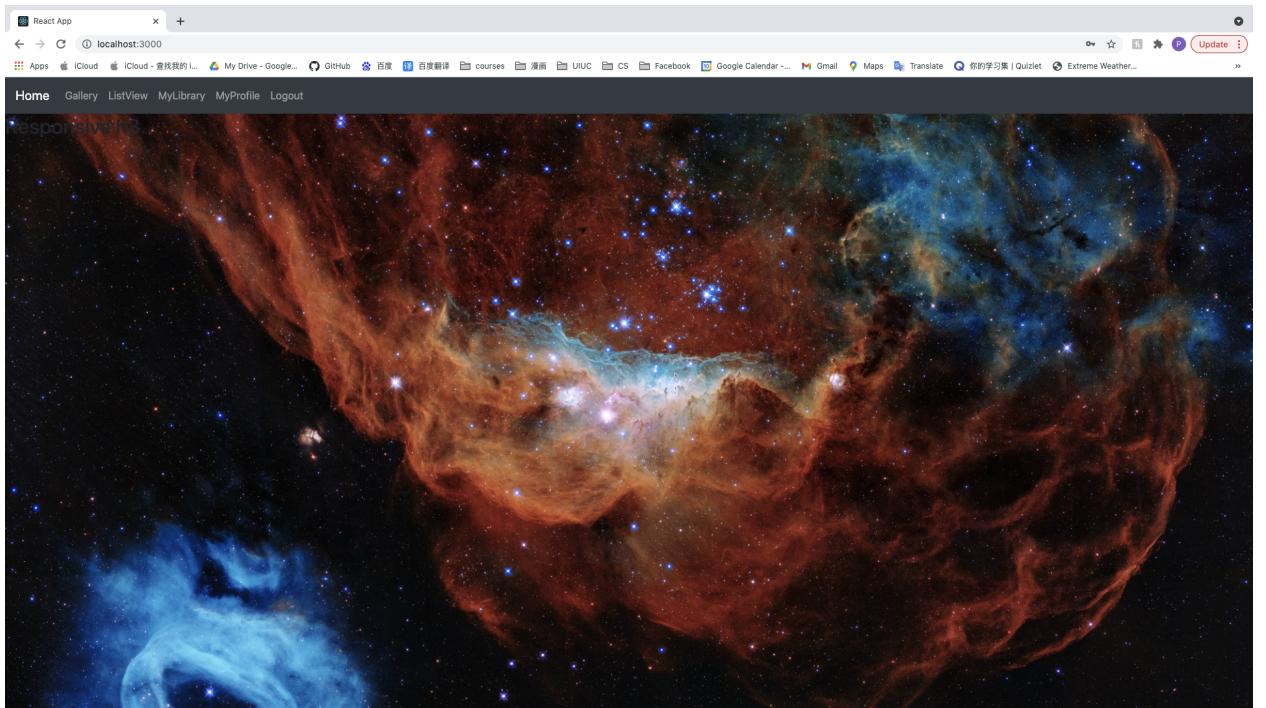

2. New login page is like

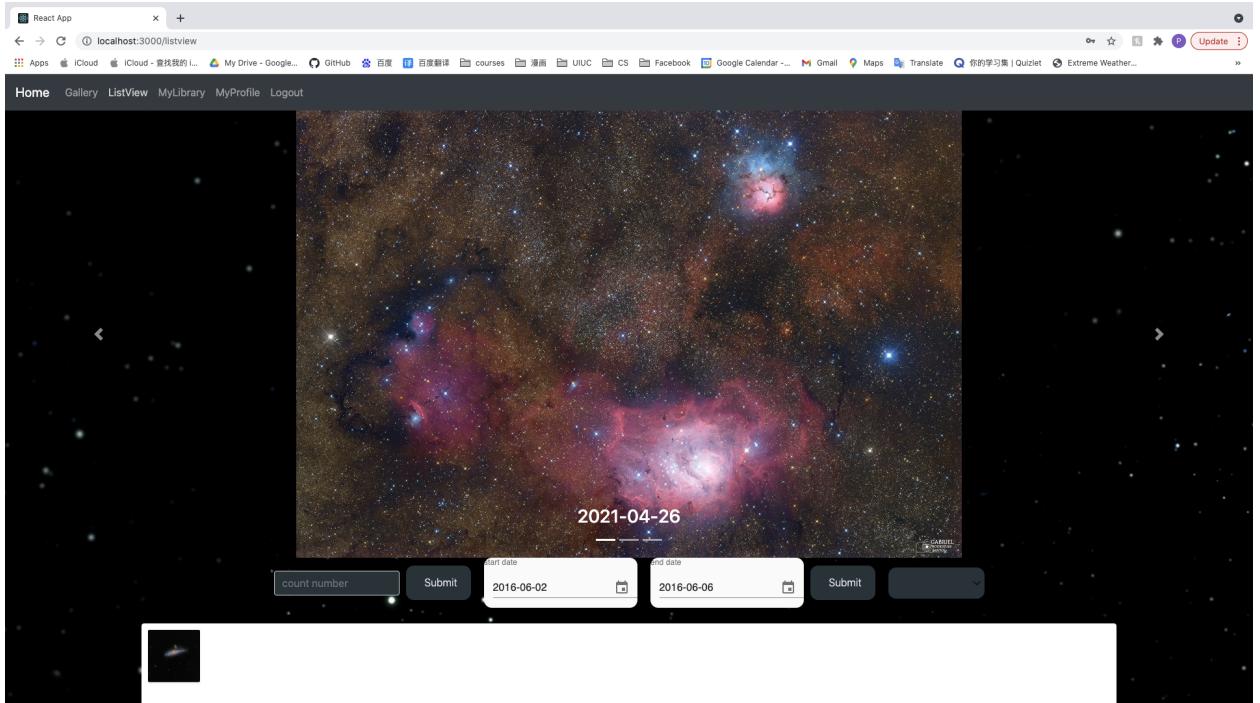

Instead of

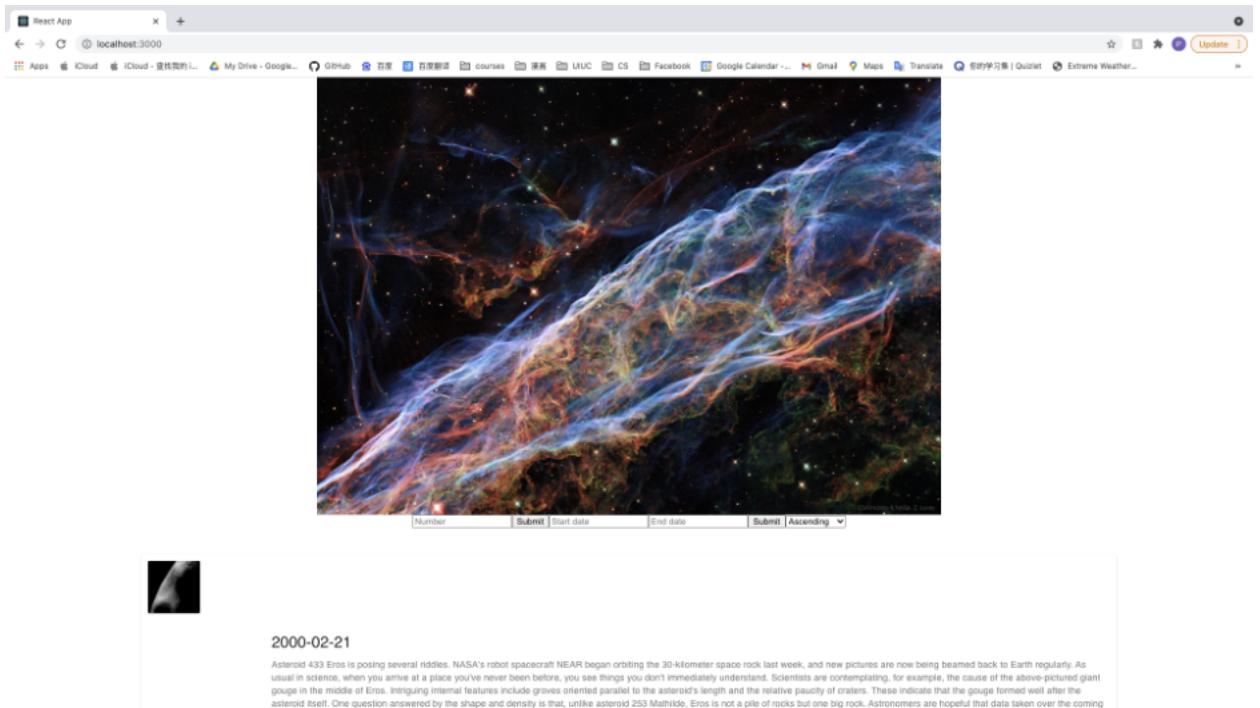

3. After successfully login, the navbar will change like

4. New listview is like

Instead of

5. There's a 3-image carousel at the top of listview instead of a single image
6. The carousel will auto change the image
7. Click the arrow button aside to can also change the carousel displaying image
8. I also changed the button of listview

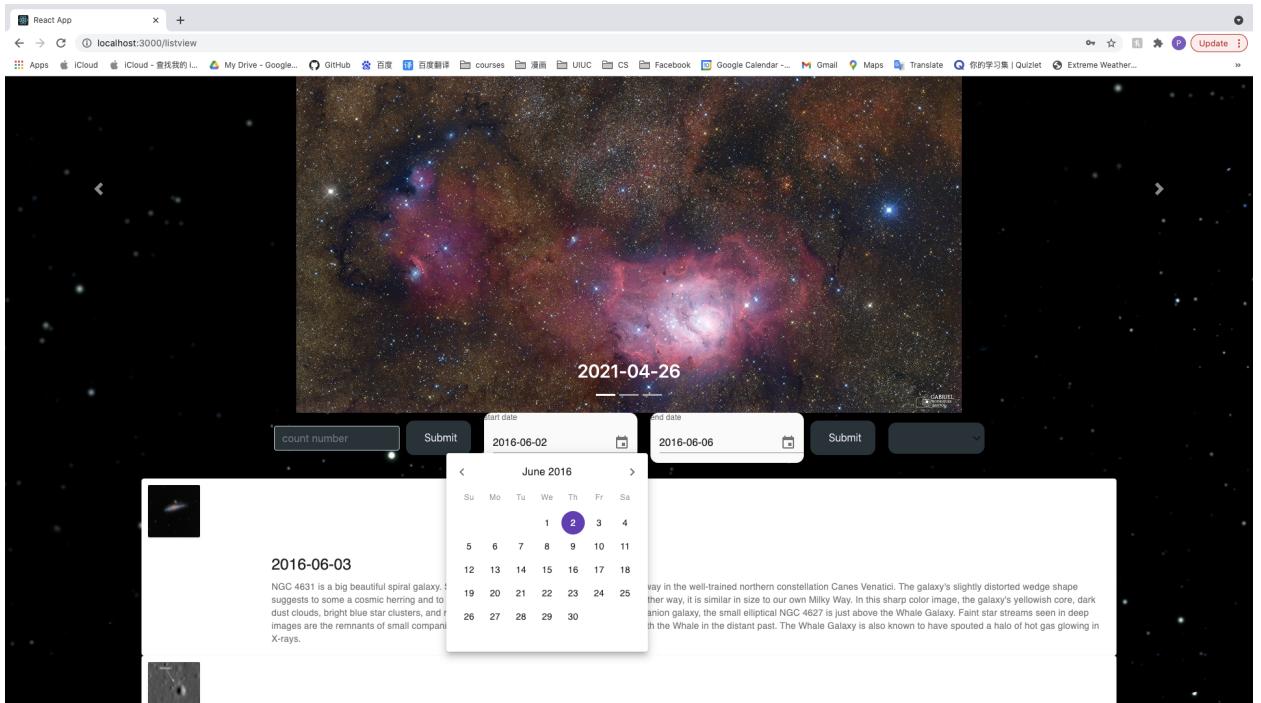

From

Number	Submit	Start date	End date	Submit	Ascending
--------	--------	------------	----------	--------	-----------

To

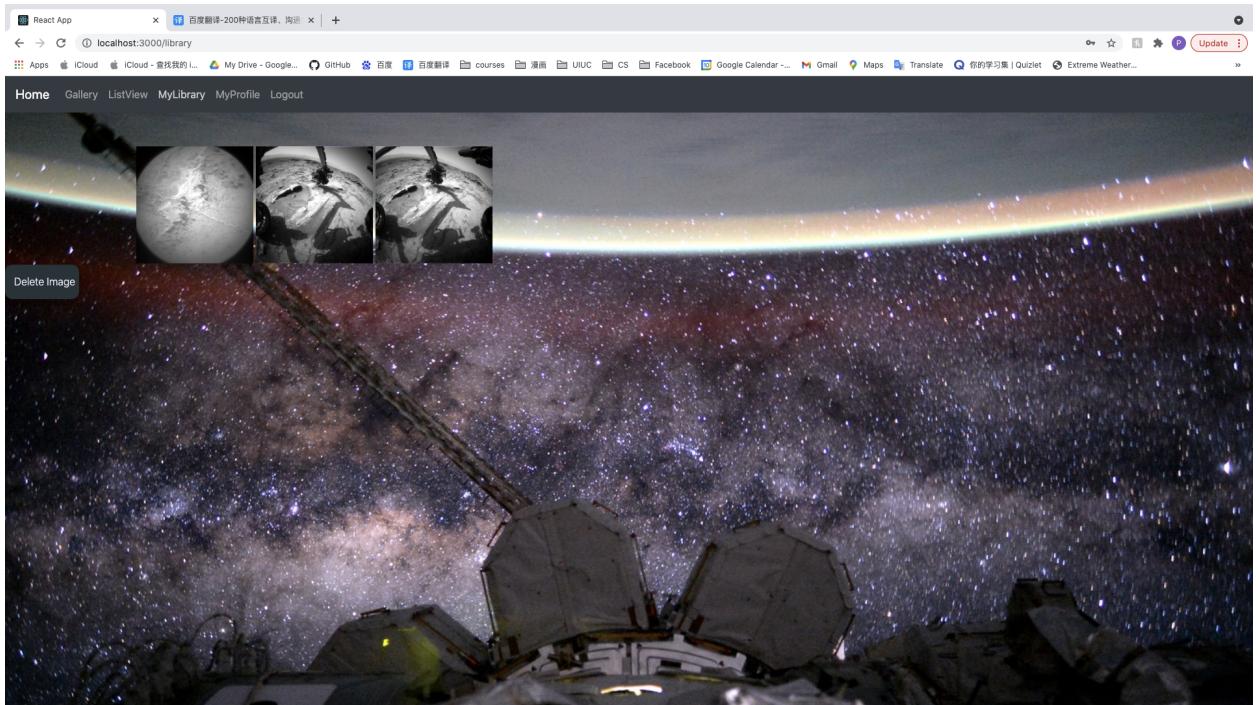

count number	Submit	start date 2016-06-02	end date 2016-06-06	Submit	▼
--------------	--------	--------------------------	------------------------	--------	---

9. Click the date button will show like

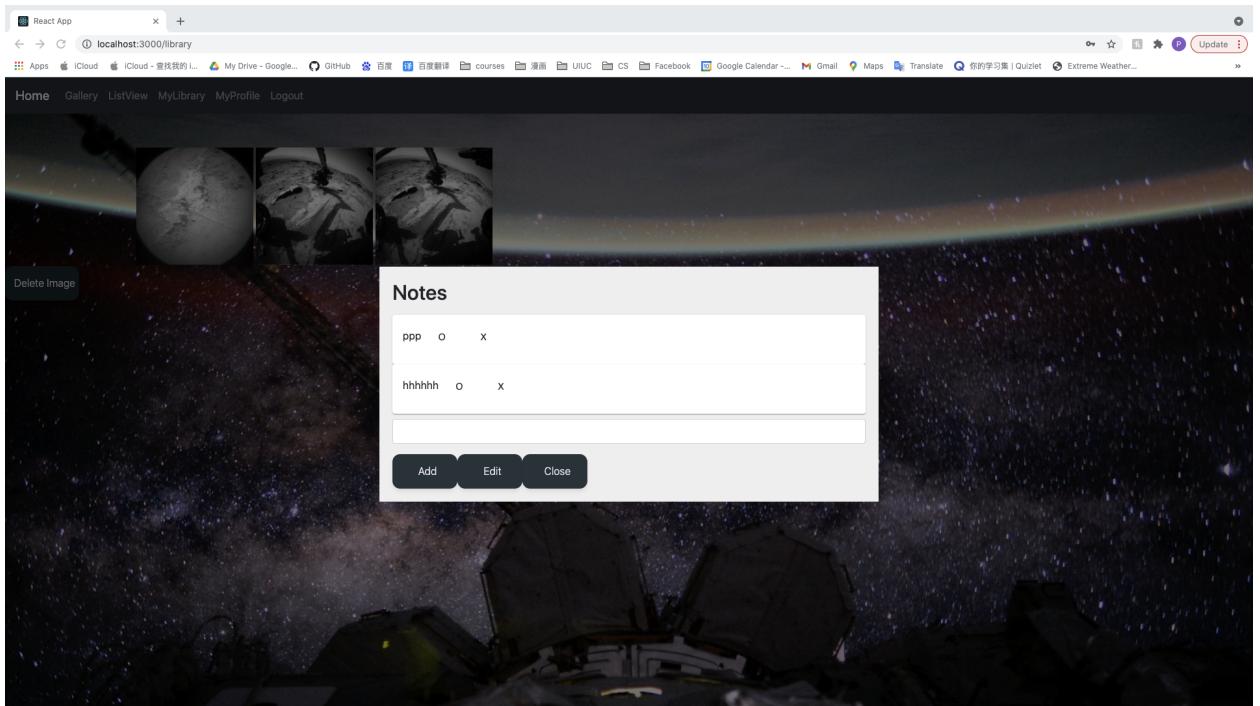

10. You can still manually input the date instead of choose

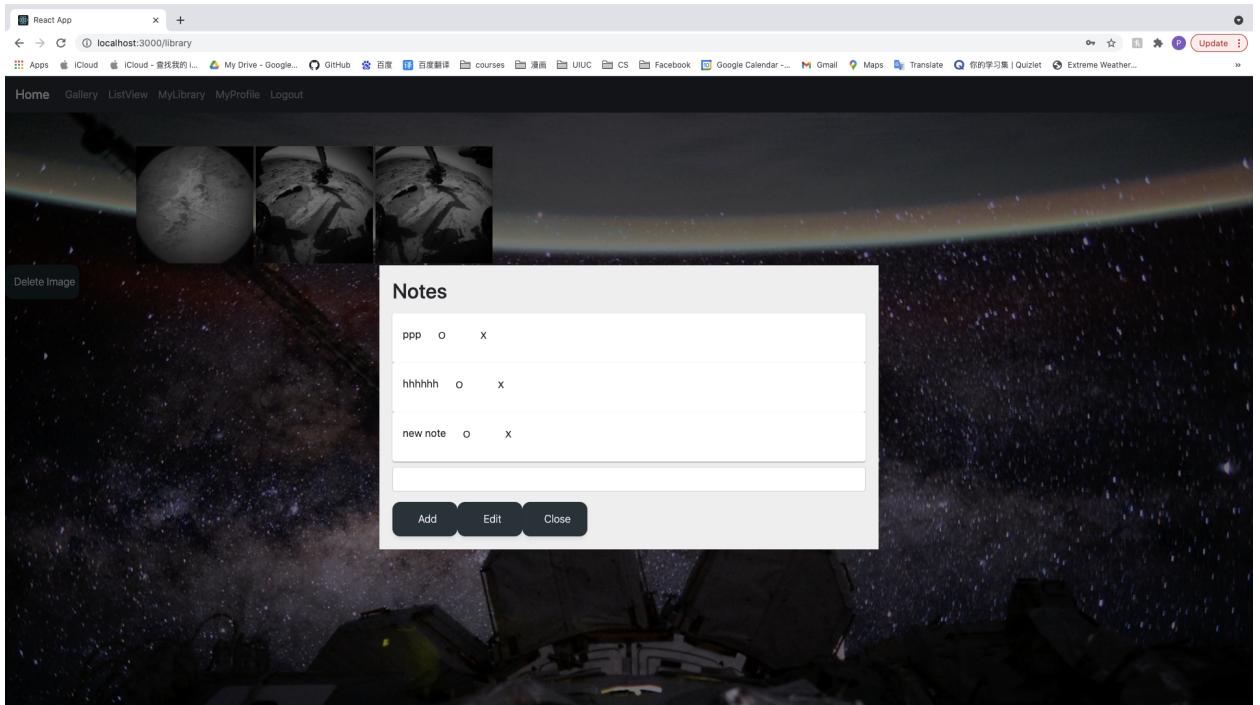

11. Click MyLibrary should redirect to a page like this

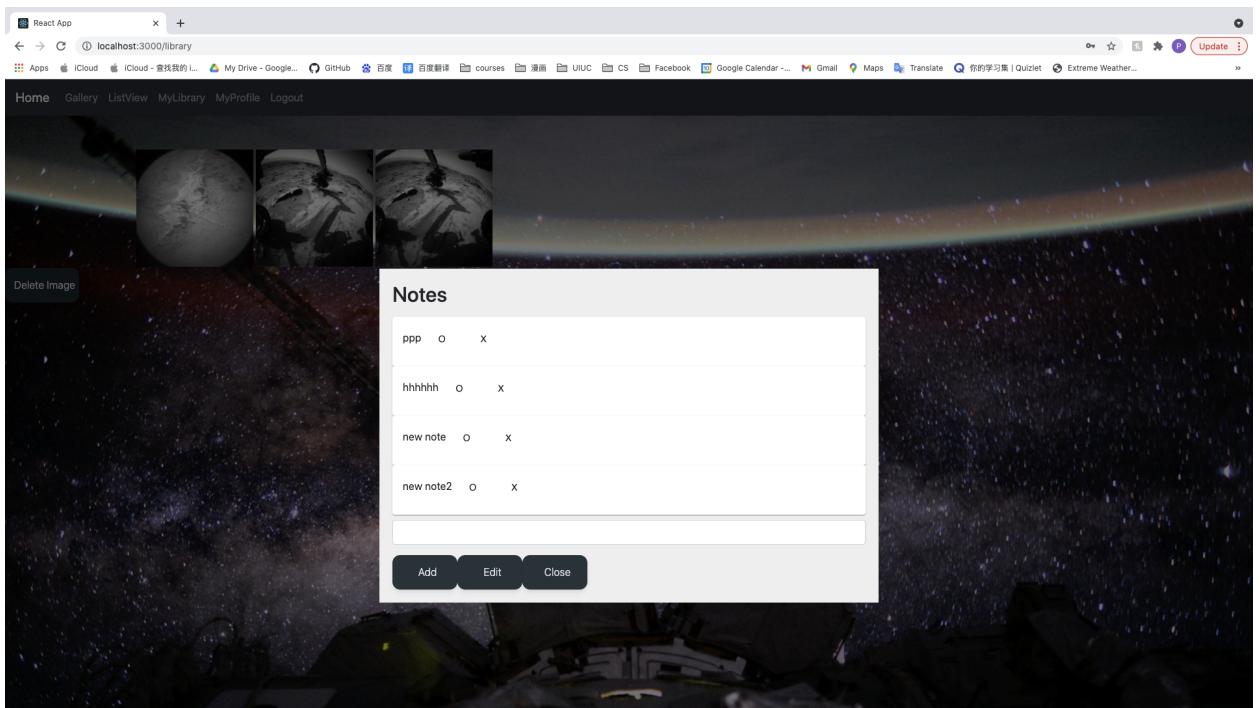

12. Clicking any image will display the notes of it like this

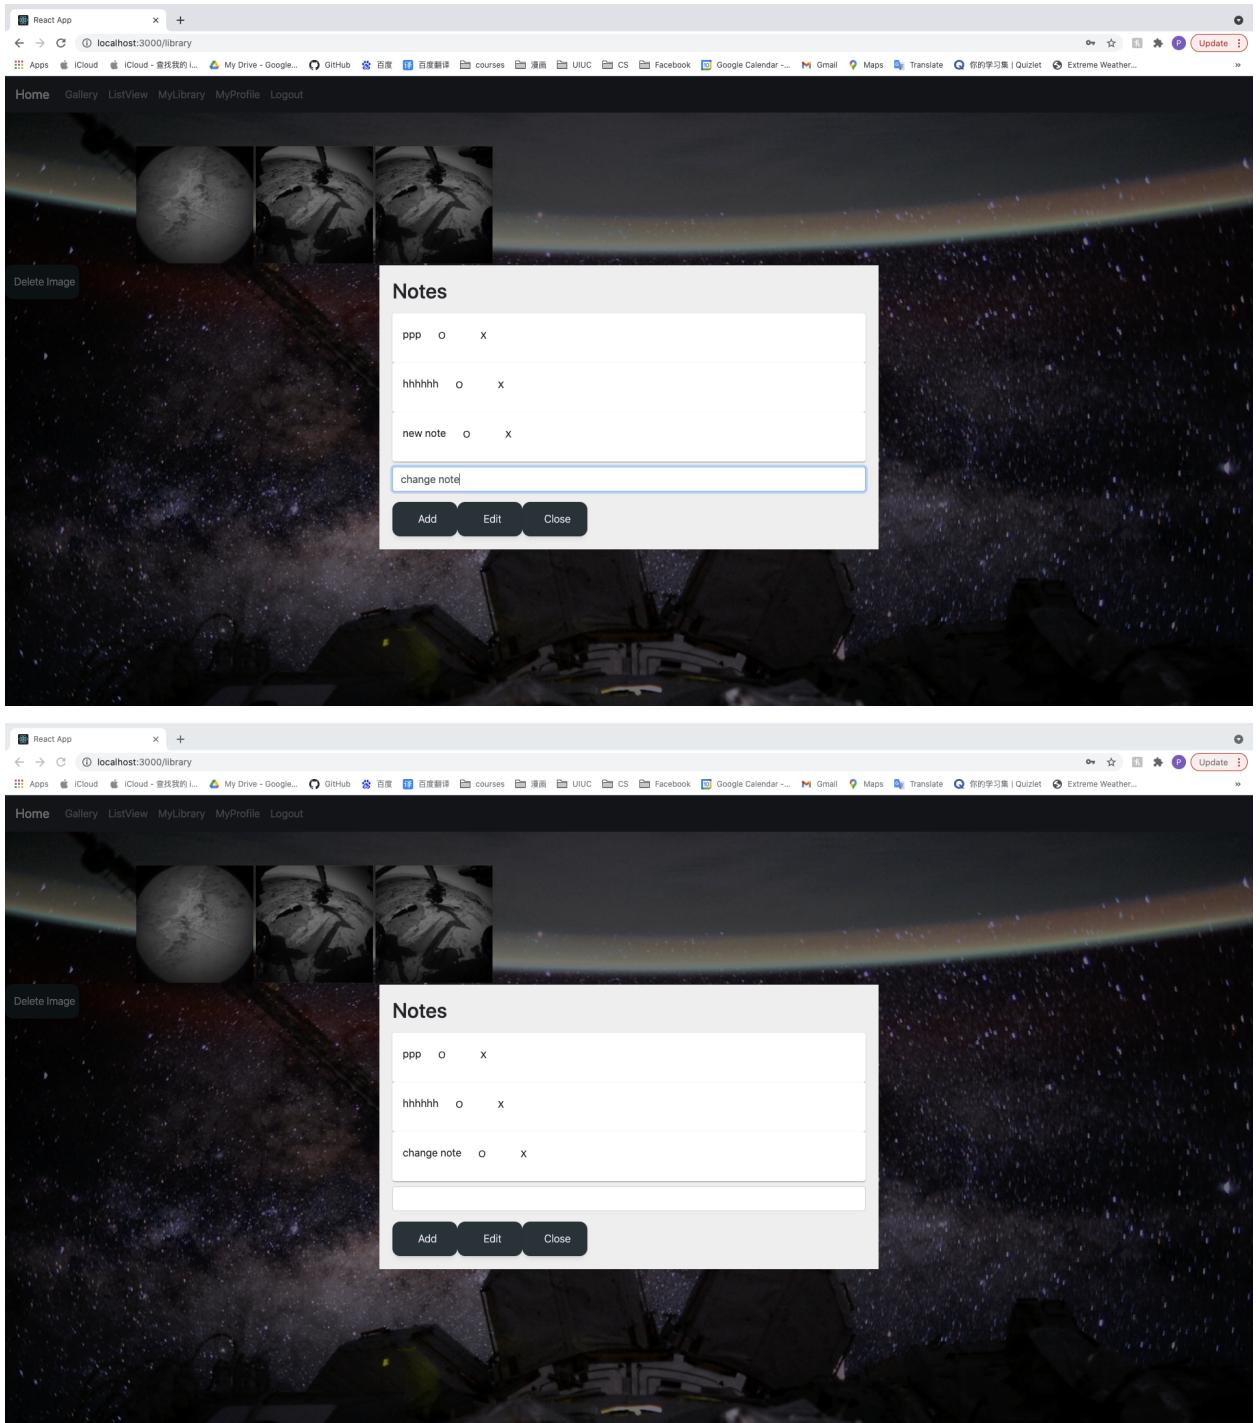

13. Input any message in the text editor and click Add button will add the message immediately

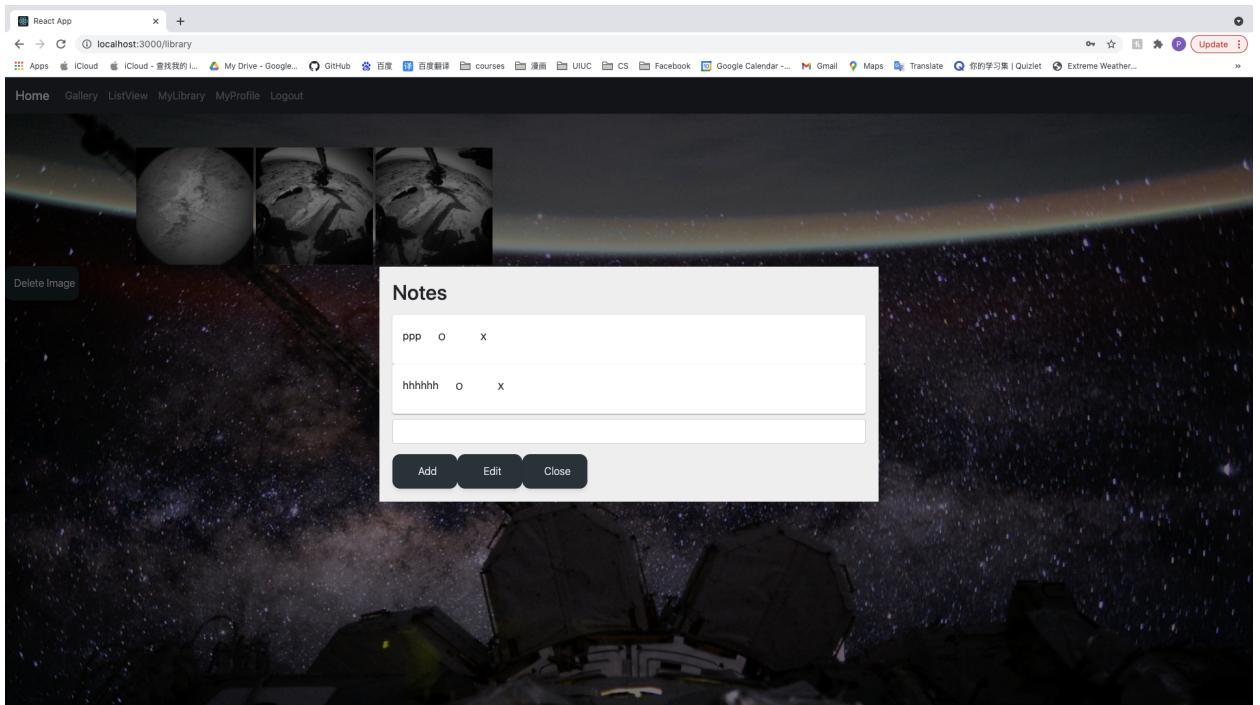

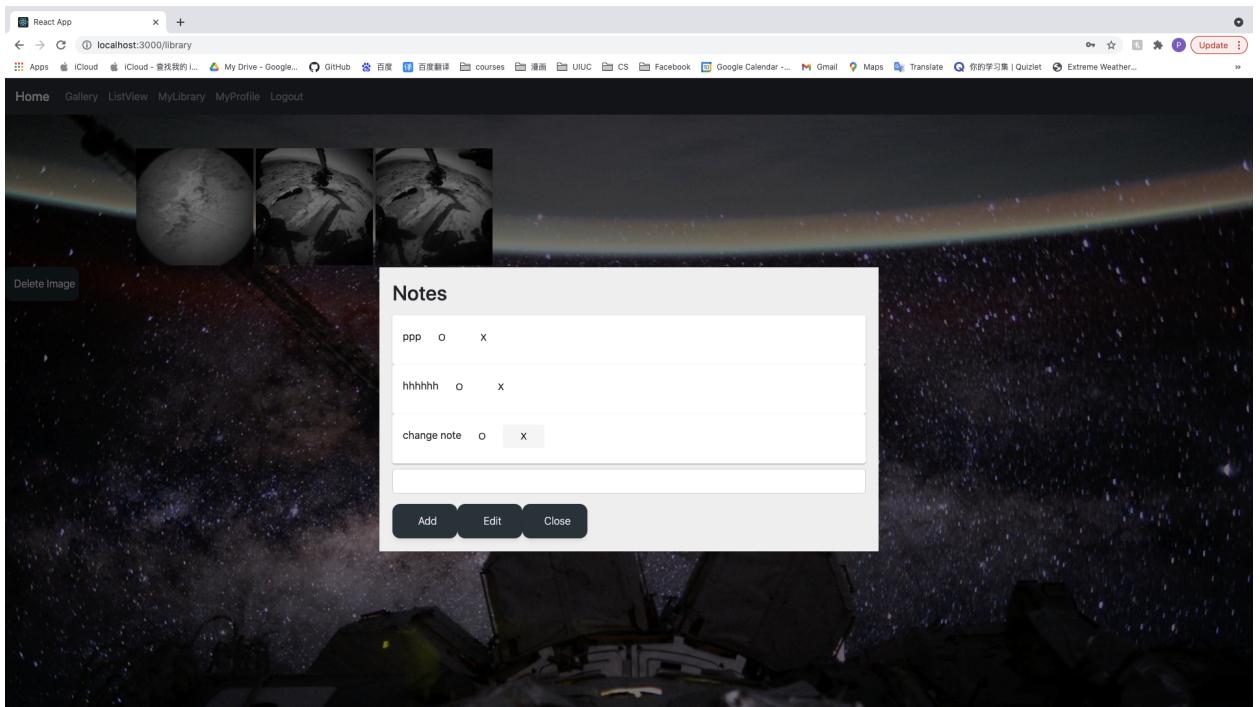

14. You should be able to continually add notes in the window

15. Click any 'o' button and input message in the text editor, then click 'Edit' can edit that note

16. Input message first, then click 'o' then click 'Edit' button can also change the note
17. Click 'o' and input messages but click Add will add a new note rather than edit that note
18. Click the 'X' button can delete the note immediately

19. Click 'Close' button will close popup window
20. Click 'Logout' in the navbar will become
